Practical Task - Data Analyst

Create a Dashboard Showing the following data:

Department Dashboard (For Each Department):
- Age Distribution
- Tenure Distribution
- Regional Distribution
- Gender Distribution

Overall, Company Dashboard:
- Age Distribution
- Tenure Distribution
- Regional Distribution
- Salary Distribution
- Last Hike % Distribution
- Gender Distribution

The parameters of Evaluation are as Under:

- Interpretation Requirement from the shared data
- Use of formulas and Excel functions
- Use of various charts relevant to the data sets
- Accuracy of formulas and calculations

You need to share the following as a submission:
- The Google Sheet where data analysis was done.
- Tab (s) in the same sheet with dashboards or A Google Presentation

Data File :
https://docs.google.com/spreadsheets/d/1I9PKHYCdAudEHdqJM1iv7oyVYtLzNvn4Dofhq0PrM Uw/edit?usp=sharing

You would have view access to the file. Please create a copy of the same and work on that.
